NITISH KUMAR

Senior Software Developer

+91- 7037293410   nitishkumar.ng746@gmail.com   linkedin.com/nitishkumar

Innovate as a Senior Software Developer specializing in comprehensive Full-Stack Solutions, particularly within the Technology sector, to enhance project outcomes and drive business growth.

Core Competencies

- Software Development Life Cycle
- Agile Project Management
- User Experience Design
- API Development and Integration
- Team Leadership and Mentorship
- Continuous Integration and Deployment
- Technical Documentation and Reporting
- Full Stack Application Architecture
- End-to-End Web Development
- Microservices Architecture
- Backend API Development
- MongoDB / PostgreSQL Integration
- Responsive UI Development
- API Integration

Technical Skills

Front-end: HTML CSS, JavaScript, Reactjs, Typescript, Redux, Tailwind CSS, Material UI

Back-end: Expressjs, Nodejs, TypeScript, Socket.io

Database: MongoDb

Development Tools: VS Code, Postman, Git, AWS, Scrum, Agile, Unit Testing,Jest, Jira

Profile Summary

- A result-oriented professional with **over 4 years of experience in Software Development, focusing on the MERN stack** to create robust web applications & services that meet client needs.
- Direct the development of scalable applications in the role of **Senior Software Developer at Mobile Programming India Pvt. Ltd.,** while implementing best practices and optimizing performance for enhanced user satisfaction.
- **Cultivate substantial expertise in full-stack development, especially with React.js and Node.js,** while actively mentoring junior developers.
- **Leading the creation of a high-traffic application that enhanced user engagement,** exemplifying the capacity to provide effective solutions.
- **Exhibit exceptional leadership skills** by mentoring junior developers, nurturing their professional growth, and guaranteeing the production of superior quality code.
- **Implement Agile methodologies proficiently to streamline project delivery timelines** and boost team productivity through strategic sprint planning and execution.
- **Earned recognition for enhancing application performance,** achieving a **reduction in load times,** which greatly improved user experience and satisfaction.
- **Demonstrate comprehensive knowledge of cloud technologies, especially AWS,** facilitating the deployment of applications in a highly scalable and efficient manner.

Career Timeline (Recent 3 Organizations)

Feb'22 to Nov'22	Nov'22 to Jun'24	Since Jun'24
Applore Technologies	Insurance Samadhan	Programming.com (Mobile Programming India Pvt. Ltd.)

Work Experience

Programming.com (Mobile Programming India Pvt. Ltd.), Gurugram | Since June 2024
Senior Software Developer

Key Result Areas:
- Spearheading the full-stack development of scalable applications utilizing cutting-edge technologies such as React.js, Node.js, and MongoDB, ensuring high performance and reliability.
- Collaborating closely with UI/UX teams to design and implement responsive web interfaces that enhance user engagement and satisfaction.
- Constructing robust APIs and integrating various third-party services to extend application functionality and improve user experience.
- Mentoring and guiding junior developers, conducting thorough code reviews to uphold high standards of code quality and best practices.
- Engaging in regular performance optimization initiatives, identifying bottlenecks, and implementing solutions to enhance server-side performance.
- Participating in Agile ceremonies, contributing to sprint planning, and ensuring timely delivery of project milestones.
- Documenting technical specifications and project progress to facilitate clear communication among team members and stakeholders.
- Conducting training sessions for junior developers to enhance their technical skills and foster a culture of continuous lsearning.

Insurance Samadhan, Noida | November 2022 to June 2024
Senior MERN Stack Developer

Key Result Areas:
- Orchestrated the development of scalable web applications while migrating existing CRON jobs to a Microservices architecture for improved efficiency and maintainability.
- Crafted responsive user interfaces using React.js, ensuring optimal state management through Redux for enhanced user experience.
- Administered technical initiatives and mentoring junior developers, fostering a collaborative environment that encourages knowledge sharing and skill development.
- Steered system testing, deployment processes, and performance optimization to ensure seamless application functionality.
- Collaborated with cross-functional teams to gather requirements and implement new features that align with client needs and expectations.
- Conducted regular code reviews and implementing best practices to maintain high standards of code quality and performance.
- Engaged in Agile ceremonies, contributing to sprint planning, and ensuring timely delivery of project milestones.
- Documented technical specifications and project progress to facilitate clear communication among team members and stakeholders.

Applore Technologies, Noida | February 2022 to November 2022
MERN Stack Developer

Key Result Areas:
- Developed and maintained web applications for high-profile clients like JK Tyres and Easer, ensuring adherence to project timelines and quality standards.
- Constructed RESTful APIs and optimizing application performance to ensure seamless user experiences and efficient data management.
- Collaborated with cross-functional teams to gather requirements and implement new features based on client needs and expectations.
- Enhanced front-end user experience by applying React.js best practices and optimizing application responsiveness.
- Participated in code reviews and providing constructive feedback to peers to maintain high standards of code quality.
- Engaged in Agile ceremonies, contributing to sprint planning, and ensuring timely delivery of project milestones.
- Documented technical specifications and project progress to facilitate clear communication among team members and stakeholders.

Cliffex Software Solution, Noida | May 2021 to February 2022
Full Stack Developer

Key Result Areas:
- Developed APIs and deploying applications while enhancing user interactions through the implementation of React.js best practices.
- Gained practical experience in Agile development methodologies and full-stack best practices to deliver high-quality software solutions.
- Collaborated with senior developers to deliver feature enhancements and ensure alignment with project goals and timelines.
- Focused on improving problem-solving skills and effective team collaboration to drive project success.
- Engaged in regular code reviews and implementing best practices to maintain high standards of code quality and performance.
- Documented technical specifications and project progress to facilitate clear communication among team members and stakeholders.

💼 Projects

JK Maintenance App | 6 Months

Key Result Areas:
- Engineered a robust maintenance management solution delivering operational efficiency through real-time data visibility, automated task assignment and tracking, comprehensive task histories, and dynamic checklist integration—enabling seamless daily workflow and resource availability monitoring.

Insurance Samadhan | 3 Months

Key Result Areas:
- Designed and developed a responsive, high-performance web application leveraging ReactJS, Tailwind CSS, and NodeJS—ensuring cross-device compatibility, optimized loading speeds, and an enhanced user experience through clean, intuitive UI/UX architecture.
